

Todd Johnson

11 Merritt Court | Deeragun, QLD, 4814

0400 395 394 | ToddAJohnson93@gmail.com | www.toddjohnson.com.au

Objective

I'm Todd Johnson, I am an out of the box, creative thinker and hard worker. I don't fit into a typical stereotype. I'm into coding & IT and spend hours playing my Maton acoustic guitar and I love cars and rugby.

I love a challenge and enjoy problem solving, if I don't know an answer to a question I will find an answer.

To find out more about me please check out my online resume at www.toddjohnson.com.au

Education

- Gold Coast Institute of Tafe
- Diploma of Software Development | 2012

Experience

September 2015 - Currently Employed

Information Technology Officer | Queensland Health | Townsville, QLD

I have been brought onto the Windows 7 Project team at Queensland Health where I will be rolling out upgrades to Windows 7 to workstations across a multitude of sites including, Townsville, Kirwan, Ayr, Palm Island, Charters Towers, Richmond, Hughenden and Ingham. My duties are as follows:

- Workstation Replacements for workstations out of warranty
- Migrate workstations from Windows XP to Windows 7
- Create printer configuration profiles in Novell iPrint
- Assign Windows 7 drivers to printers in Novell iPrint
- Assign applications to workstations using SCCM
- Documenting work instruction how to's for other staff in the department

January 2015 - May 2015

Administration Officer | Education Queensland | Doomadgee, QLD

Whilst living in Doomadgee a remote town near the Gulf of Carpentaria I worked at Doomadgee State School as an Administration Officer. During this time I was acting Business Service Manager (BSM) for over approximately 1 1/2 months and performed the following:

- Co-ordinated contract workers throughout the school
- Organised and managed casual staff members
- Organised rosters, pays and leave for casual & permanent staff
- Processing bills and invoices
- Processing purchase orders
- Handling phone, email and walk in enquires
- Enrolling students within the school
- Processed Blue-Card applications for staff

October 2013 - December 2014

eSurvey Developer & Database Administrator | Best Practice Australia | Milton Australia

Best Practice Australia is one of the leading researchers in the private health industry where they provide excellent research to their clients. During my time working as an eSurvey Developer & Database Administrator I performed the following duties and improved productivity by:

- Creating eSurveys with IBM's SPSS Author
- Used advanced routing techniques in SPSS Author
- Utilised HTML, CSS, JavaScript and jQuery for eSurvey Templates
- Used cross-browser and speed enhancing techniques to ensure consistent performance
- Optimise tablet survey views by using the responsive web design approach
- Creating and utilising sprite sheets
- Using a DRY approach I modularised eSurvey components and was able to gain a 30% increase in development speed
- Consolidating eSurvey data using BPAs Microsoft Access databases
- Optimising Microsoft Databases for consistency and performance
- Creating documentation for the IT department
- Creating a training program for new eSurvey developer staff
- Training new IT staff member
- Improve productivity by developing small systems that utilised open source technologies (HTML5, CSS 3, SASS, JavaScript, jQuery, PHP and MySQL)
- Maintaining organisations workstations, switches, patch panels & servers
